## CYANOCOBALAMIN INJECTION USP

SAFETY DATA SHEET

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Manufacturer:

A Mylan Company

Bangalore, India

Agila Specialities Pvt. Ltd.

Opposite IIM, Bilekahalli

#### IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY

#### **Product Identifier**

Product name: Cyanocobalamin Injection USP

**Intended Use of the Product** 

**Use of the substance/mixture:** Pharmaceutical. Intramuscular; intravenous. Use only as directed. Refer to product insert for usage instructions and product information.

#### Name, Address, and Telephone of the Responsible Party

Supplier: Mylan Institutional LLC 1718 Northrock Court Rockford, IL 61103 USA 1-888-258-4199 www.mylan.com

#### **Emergency Telephone Number**

: +1 877-446-3679

2.

1.

#### HAZARDS IDENTIFICATION

**Patients/Consumers:** Please refer to the product information insert or product label for appropriate consumer-specific information about this product when used according to the physician's directions. Pharmaceutical Agent – Handling of this product in its final form presents minimal occupational exposure risk.

#### **Classification of the Substance or Mixture**

Classification (GHS-US)

**Emergency number** 

## Not classified

Label Elements

**GHS-US labeling** No labeling applicable

#### Other Hazards Not available

Unknown acute toxicity (GHS-US) Not available

#### **COMPOSITION/INFORMATION ON INGREDIENTS**

3. Mixture

#### Classification (GHS-US) Name Product identifier % (w/w) Benzyl alcohol (CAS No) 100-51-6 1 - 5 Flam. Liq. 4, H227 Acute Tox. 4 (Oral), H302 Acute Tox, 4 (Dermal), H312 Acute Tox. 3 (Inhalation:vapour), H331 Eve Irrit. 2A, H319 Aquatic Acute 2, H401 (CAS No) 68-19-9 Vitamin B12 0.1 Not classified

Additional information: Sodium hydroxide and/or Hydrochloric acid have been added for pH adjustment.

Full text of H-phrases: see section 16 4.

#### FIRST AID MEASURES

#### **Description of First Aid Measures**

General: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice.

**Inhalation:** The risk of inhalation exposure is negligible when product is in its final packaged form. If exposed and become symptomatic, move to fresh air and get medical attention if symptoms persist.

Skin Contact: Basic hygiene and appropriate precautions should prevent skin contact. If skin contact occurs, wash affected area with soap and water for at least 15 minutes. Should skin irritation, allergic reaction, or rash occur, remove contaminated clothing (if required) and seek medical advice.

Eve Contact: The risk of eve exposure is negligible when product is in its final packaged form. If eve contact occurs, flush immediately with water for at least 15 minutes. If easy to do, remove contact lenses. Get medical attention.

Ingestion: Ingestion is not an anticipated route of exposure. If accidental ingestion occurs, flush mouth out with water and get medical attention.

#### Most Important Symptoms and Effects Both Acute and Delayed

General: Please refer to the package insert for more detailed information.

Inhalation: None expected under normal conditions of use.

Skin Contact: Not irritating to skin.

Eye Contact: May cause slight irritation.

Ingestion: Ingestion is likely to be harmful or have adverse effects.

Injection: The most common side effect is mild, temporary diarrhea.

Chronic symptoms: Not available

#### Indication of Any Immediate Medical Attention and Special Treatment Needed

If exposed or concerned, get medical advice and attention. In the event of accidental injection, go immediately to the nearest emergency room.

#### 5.

#### **FIREFIGHTING MEASURES**

#### **Extinguishing Media**

Suitable extinguishing media: Not flammable. Use extinguishing media appropriate for surrounding fire. Unsuitable extinguishing media: None known.

#### Special Hazards Arising From the Substance or Mixture

Fire hazard: Not flammable.

Explosion hazard: Product is not explosive.

Reactivity: Hazardous reactions will not occur under normal conditions.

#### Advice for Firefighters

**Precautionary measures fire:** Exercise caution when fighting any chemical fire.

Firefighting instructions: Use water spray or fog for cooling exposed containers.

Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

Hazardous Combustion Products: Not applicable.

Other information: Refer to Section 9 for flammability properties.

#### 6.

#### ACCIDENTAL RELEASE MEASURES Personal Precautions, Protective Equipment and Emergency Procedures

General measures: Do not get in eyes, on skin, or on clothing.

#### For Non-Emergency Personnel

Protective equipment: Use appropriate personal protection equipment (PPE).

Emergency procedures: Evacuate unnecessary personnel.

For Emergency Personnel

Protective equipment: Equip cleanup crew with proper protection.

Emergency procedures: Ventilate area. Stop release.

Environmental Precautions Prevent entry to sewers and public waters.

#### Methods and Material for Containment and Cleaning Up

Methods for cleaning up: For small quantities associated with normal therapeutic use, collect spillage and transfer to a closed waste container for disposal. For large or bulk quantities, after absorption with inert material, collect spillage by sweeping up spilled material and place in a labeled, sealed container for proper disposal.

Reference to Other Sections See heading 8, Exposure Controls and Personal Protection.

#### 7.

#### HANDLING AND STORAGE

#### **Precautions for Safe Handling**

Patients/Consumers: Patients should adhere to the instructions provided within the product information insert or product label for appropriate consumer-specific information about this product when used according to the physician's directions. Hygiene measures: This SDS is for a pharmaceutical agent - Handling of this product in its final form presents minimal occupational exposure risk. In an occupational setting, handle in accordance with good industrial hygiene and safety procedures. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Use appropriate personal protective equipment when handling and observe good personal hygiene measures after handling.

#### **Conditions for Safe Storage, Including Any Incompatibilities**

Storage conditions: Store in a dry, cool and well-ventilated place. Protect from heat and direct sunlight.

Special rules on packaging: Examine the vial for particulate matter and discoloration prior to administration. If the solution is discolored or contains solid particles (precipitate), do not use.

Specific End Use(s) Pharmaceutical. Refer to product insert for usage instructions and product information.

8.

#### **EXPOSURE CONTROLS/PERSONAL PROTECTION**

**Control Parameters** Not applicable

#### Exposure Controls

**Appropriate engineering controls:** Not generally required. Site-specific risk assessments should be conducted to determine the appropriate exposure control measures. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits.

**Personal protective equipment:** Not generally required. The use of personal protective equipment may be necessary as conditions warrant.

Hand protection: Wear protective gloves made from PVC, neoprene, nitrile, vinyl, or PVC/NBR.

**Eye protection:** In laboratory, medical or industrial settings, or operations in which airborne particulates will be generated, safety glasses with side shields are recommended.

Skin and body protection: In laboratory, medical or industrial settings, impervious disposable gloves and protective clothing are recommended if skin contact with drug product is possible.

**Respiratory protection:** When manufacturing or handling product in large quantities and vapors or mists may be generated, maintain airborne concentrations below recommended limits. Workplace risk assessments should be completed before specifying and implementing respirator usage. NIOSH approved respirators for protection should be used if respirators are found to be necessary.

| Solubility  | : | Not available |  |  |  |
| Log Pow/Kow   | : | Not available |  |  |  |
| Viscosity   | : | Not available |  |  |  |
| Explosion data - sensitivity to mechanical impact     | : | Not available |  |  |  |
| Explosion data - sensitivity to static discharge      | : | Not available |  |  |  |

#### STABILITY AND REACTIVITY

**Reactivity** Hazardous reactions will not occur under normal conditions.

<u>Chemical Stability</u> Stable under normal conditions.

**Possibility of Hazardous Reactions** Hazardous polymerization will not occur.

**<u>Conditions to Avoid</u>** Direct sunlight. Extremely high or low temperatures.

**Incompatible Materials** Strong oxidizers. Strong bases. Strong acids.

Hazardous Decomposition Products Nitrogen compounds. Carbon oxides (CO, CO<sub>2</sub>). Oxides of phosphorus. Chlorine.

11.

## TOXICOLOGICAL INFORMATION
