

## Total Protection™ for everyone. Every day. Every wear.

With proprietary EnviroScreen™ Technology, Total Protection™ products are the only all-mineral sunscreens that offer comprehensive defense from sun + pollution for every need:

Easy  
reapplication

Sports and  
outdoors

Mess-free

For the  
whole family

Skincare &  
beauty regimen

- + Always 100% reef-safe, chemical-free, mineral sunscreen actives
- + Hydrating and antioxidant-rich
- + Oil-free, hypoallergenic, and non-comedogenic
- + Dermatologist tested
- + Formulas for all skin types and tones

Recommended by  
the Skin cancer  
foundation as an  
effective broad  
spectrum sunscreen.

## COLORESCIENCE KNOW BETTER SKIN™

We're Colorescience, and we know healthy skin. From sunlight, to pollution, to free radicals, we believe in going way beyond UV. We're obsessively overprotective about preventing skin damage. And that's exactly why physicians love us.

### WE KNOW SKINCARE INNOVATION.

We believe skincare battles are best won before they are fought. Because investing in scientific innovation now, means we won't have to pay the price for free radicals later.

### WE KNOW SERIOUS SUN PROTECTION.

When it comes to sunscreen, we believe it should be a purely physical relationship—not a chemical one. Because the best defense is a mineral sun care offense.

COLORESCIENCE.  
KNOW BETTER SKIN.

@colorescience

## EnviroScreen™ Technology for unmatched protection

Traditional sunscreens only protect from UV rays, offering just partial protection. But our skin is always exposed to both sun AND pollution which cause free radicals within the skin that can lead to damage, premature aging, and skin cancer.

Get Total Protection™ with our proprietary EnviroScreen™ Technology for comprehensive defense against:

UVA/UVB

Pollution

Blue (HEV) Light

Infrared Radiation

### FORMULATED WITH ENVIROSCREEN TECHNOLOGY™:

- + Patented mineral active ingredients
- + Effective antioxidants
- + Soothing hydration

### OPTIONS FOR ALL SKIN TYPES AND TONES
